INTRODUCTION

Why on earth do I want to study sheep anyway?

CHAPTER 5

A INTRODUCTION TO SHEEP

Is there life after sheep? [1] Yes, I say there is.

5.1 Pulling the wool over your eyes

Sheep are fabulous creatures. The noises they make are truly stupendous [2]. We also want to refer to figure 5.1 here. Here' some verbatim text to screw us up:

```
xxx := y;  
xy := x;
```

5.1.1 All about sheep noises

Lots of text here just to fill up some space so we can be sure that we really are double-spacing and doing all the other things that might be necessary in formatting a dissertation to U.Mass. guidelines. We're also going to have another figure here, figure 5.2, just for fun, and to make sure that the list of figures is formatted correctly. Now it's time for table 5.1. We really are going to need a third figure, figure 5.3, two more tables, table 5.2 and table 5.3 and a fourth figure, figure 5.4, just to really make sure.

Table 5.1. Some numbers.

Type of Animal	Minimum Observed	Average Observed	Maximum Observed
Cats	12	20	24
Dogs	20	20	20

Figure 5.1. A circle in a square.

Figure 5.2. A disc in a square.

Table 5.2. More numbers.

Type of Animal	Arms	Legs	Ears
Person	2	2	2
Dog	0	4	2

Figure 5.3. Two discs in a rectangle.

Table 5.3. Even more numbers; together with a caption long enough to ensure that multi-line caption formatting works correctly. If you want a shorter caption to appear in the Table of Figures you're going to have to put the shorter caption in the [] as shown in this example.

x	1	1	1
y	2	2	2
z	3	3	3

Figure 5.4. A circle and a disc in a square. We want this caption to be very long to ensure that the formatting of very long captions is handled correctly. The case of short captions has already been dealt with.

5.1.1.1 Baahs

5.1.2 Even more about sheep noises

5.1.3 And yet more about sheep noises

5.2 What about wolves?

What about wolves?¹

5.3 What about shepherds?

What about shepherds? I don't really know, but I want some text here to fill things in so that I can verify that everything is OK.²

¹To be fair, some wolves are probably nice. . .

²Some shepherds are good, some are bad. The reader is referred to Mary and The Boy Who Cried Wolf for further insight into this much-debated issue. (This needs to be a very long footnote so we can test the spacing between lines on a footnote.)

5.3.1 A subsection

This is a subsection of the subsection about shepherds.

5.3.2 Another subsection

This is another subsection of that section.

5.3.2.1 A subsubsection

This is a subsubsection of that subsection that will in turn have a paragraph with a pair of subparagraphs. I am aware that I shouldn't have only one subsubsection in the subsection...

5.3.2.1.1 A Paragraph This is the text associated with this paragraph. I really want enough text to make it look like a paragraph. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah.

5.3.2.1.1.1 A Subparagraph This is the text associated with this subparagraph. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah.

5.3.2.1.1.2 Another Subparagraph Better not have subparagraphs without text in them. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah.

5.3.2.1.2 Another Paragraph Baah, baah, baah. Baah, baah, baah. Baah,
baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah, baah. Baah, baah,
